

Office Task Chair Mechanisms

We offer a wide choice of chair mechanisms to provide a full range of adjustments to suit particular tasks and individual needs. All mechanisms are of the finest quality and have only been selected after thousands of hours of continuous testing.

All swivel chairs are fitted with top quality pneumatic gas height adjustments as standard which are Class 4 compliant, thereby ensuring all swivel models can facilitate a weight of up to **150kg (23 stone)** for normal use.

GAS LIFT

Pneumatic gas height adjustments, Class 4 compliant.

BACK RAKE

Backrest fully adjustable for height and angle.

STANDARD TILT

Standard tilt mechanism can be locked in the upright position or free-floating. Seat and backrest are fixed. Tension control adjusts chair to user's weight.

BACK HEIGHT ADJUSTMENT

A concealed ratchet back height adjustment enhances user support and comfort.

SYNCHRONISED TILT

Fully synchronised mechanism enables seat and backrest angle to be adjusted to required position. Fixed ratio of 2:1 ensures correct ergonomic posture. Can be locked in position or free-floating. Tension control adjusts chair to user's weight.

DUAL CONTROL

Synchronous movement enables the seat and backrest angle to be adjusted independently of each other with the ability to lock both in a fixed position. Backrest can be independently adjusted for height.

SEAT SLIDE

Sliding seat mechanism increases seat depth and enhances leg support.

SYNCHRONISED

Fully synchronised mechanism enables seat and backrest angle to be adjusted to required position. Fixed ratio of 2:1 ensures correct ergonomic posture. Can be locked in position or free-floating. Tension control adjusts chair to user's weight. Backrest can be independently adjusted for height.

HEIGHT ADJUSTABLE ARMRESTS

Height adjustable armrests for enhanced flexibility and ergonomic comfort.
